Equipment In-House

WHY PETRO MECHANICAL?

► Comprehensive Capabilities

We handle every aspect of cellar operations in-house—from cutting conductors and setting well heads to installing risers, cover plates, and fencing. By consolidating services under one provider, we eliminate coordination headaches and keep your projects moving seamlessly forward.

► Specialized Equipment

Petro Mechanical brings the right equipment to every cellar: hydro-excavators to clean and deepen, grout trucks to seal, jackhammers with crews to prepare, and retrieval systems to protect. Our full suite of gear ensures no phase of your project is slowed or overlooked.

► Safety-Backed Execution

Safety is built into every step. Our personnel retrieval systems, work platforms, and fencing solutions protect crews and sites, while our trained specialists ensure compliance from start to finish. Every operation is managed with discipline and a focus on eliminating risk.

Our Commitment to Safety

Every decision we make is grounded in one priority—protecting lives. Petro Mechanical delivers **safe, efficient cellar operations** with trained crews, **specialized gear**, and **proven oversight** so your projects stay on track.

THE PETRO MECHANICAL STANDARD

Our clients don't just hire us for compliance—they rely on us for confidence. From cellar jobs to confined space oversight, Petro Mechanical brings a level of professionalism, readiness, and care that sets the industry standard. When it comes to protecting lives and operations, we deliver nothing less than excellence.
